Art journaling is an open-ended form of art where the focus is on the process of creating and self-expression rather than the final product. Whether you are an absolute beginner or an experienced artist, art journaling can benefit you in many ways.

In this class, you will learn the basics of art journaling while having fun experimenting and learning creative ways to fill your pages. We will focus on techniques and materials that will introduce you to creating an art journal that is "uniquely you." The cost of the class includes all the materials you will need to get started. You will be able to take home a set of supplies after you leave the class. You will also be invited to join a FB page where you can share your work and your discoveries as well as see examples from other art journalers.
